

# 120L Solar totem for domestic hot water production

## TOTEM

**Clean & Green  
Energy**

**DHW**

**Easy  
Install**

Ecological, cost-effective, clean and reliable. TOTEM is ATI's solar module with natural circulation able to offer DHW with zero consumption and space-saving. An elegant glass-porcelain steel column with a capacity of 120 litres, encapsulated in a methacrylate cylinder.

The particular treatment of black paint, the methacrylate capsule, with solar booster effect, ensure maximum sunray uptake and excellent performances.

The solar panel, on a full sun day and repeated withdrawals, can deliver up to 240 litres of hot water at use temperature. The glass lining treatment protects the tank from the aggression of the natural galvanic currents and limits proliferation of any bacterial loads. The TOTEM hydraulic connections are made of stainless steel and the connection pipe placed inside the support base is suitably insulated to withstand cold temperatures. Attic, terrace, garden, even on the roof: TOTEM can be placed wherever the sun shines!

### Technical data

Storage capacity	L	120
Gross surface of solar collection	mq	1,83
Max working pressure	bar	5
Safety valve		✓
IN/OUT connections	in	¾"
Empty weight	kg	65
Empty weight	kg	185

Code  
**TOT**

Price  
**€ 1.780,00**

### Package

Weight Kg 65  
Dimensions (L x p x h)  
mm 480x490x2140

### Pallet 4 Pcs
