

PRICE LIST MARCH-2026

WATER HEATERS AND FLUE SYSTEMS

Reality
that looks far ahead

Interactive price list

An important news!

In this edition of the catalogue, ATI has included QR codes that allow you to look up the prices of our products in an online price list that is always updated and easily accessible.

Unfortunately, the trend in the cost of raw materials has made it difficult to communicate stable prices in the printed price list. We hope to do something pleasant by adding this online tool to the catalogue.

How does it work ?

Within the section indexes of the catalogue there are QR codes: by framing them with the smartphone you will be taken directly to the price list of the desired section of the catalogue. The page contains a quick search function on all the codes present in the price list with a constantly updated quotation. Alternatively, you can access the service from your computer by typing directly into the browser <https://prices.atimariani.it>

INNOVATION AND PASSION SINCE 1973

ATI MARIANI – THERMO GROUP was founded in 1973 in Cesena thanks to the initiative of Mario Mariani, who turned his experience in the plumbing and heating sector and his passion for innovation into a dynamic and creative company. Over time, the business has stood out for the production of innovative, patented plumbing and heating solutions, becoming a benchmark at an international level as well. Built on strong family foundations, ATI fosters a stable work environment based on shared values that guide the entire organization.

Core values of the Group:

- 100% Made in Italy quality – all production is carried out in Cesena.
- Flexibility – in-house design and manufacturing allow for a rapid response to market and customer needs.
- Simplicity – products that are easy to install, use, and maintain.
- Reliability – long service life and reduced maintenance requirements thanks to careful production processes and high-quality materials.

QUALITY AND CERTIFICATION

In 1998, ATI achieves the quality system certification, in accordance with ISO 9001 international standards. An important attainment that puts our company in a position of competitiveness towards the main and most reliable operators of this specific market field, both in Italy and abroad.

ATI operates in compliance with the following construction quality standards, specifically:

- 2014/35/UE - Low Voltage Directive
- 2014/30/UE - Electromagnetic Compatibility Directive
- 2016/426 (GAR) - European regulation
- ERP ecolabeling
- UNI EN 14471 / EN 1856-1 / EN 1856-2 / UNI EN 14989-2 EC Certificates

RESEARCH AND DEVELOPMENT

Looking forward over ATI's 40 years a word can define our path: progress. ATI is a constantly evolving reality. Growing production trends, projects in progress, new patents, fuel our team passion, curiosity and resourcefulness, projecting the company, every day, towards the future.

PRODUCTION

The production process is carried out utterly realized on Ati's plants. This allows the maximum supervision on the whole productive cycle and therefore guarantee the elevate quality standards. A close attention is paid to the selection of raw materials, as the quality of the finished product depends on the condition of all the elements that forms the production process. Each supply is submitted to severe inspections and if the goods do not respect the specific quality standards will be rejected.

COMPANY PROFILE

The company runs with 70 employees splitted all over the production site, with a total area of 38,000 m² of which 15,000 m² are covered, located in Cesena, in the Forlì-Cesena district, Italy.

2017	812/2013

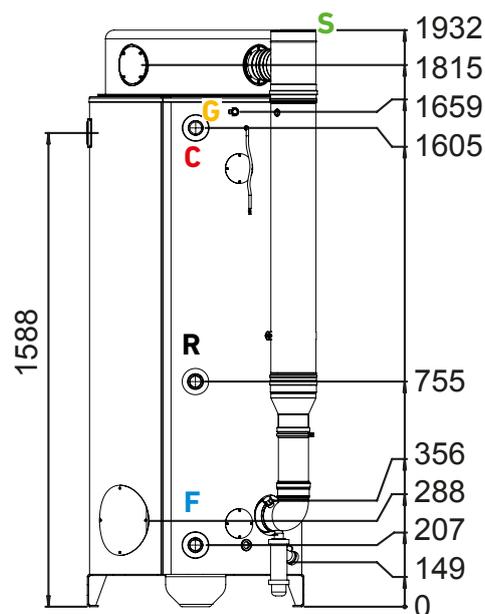

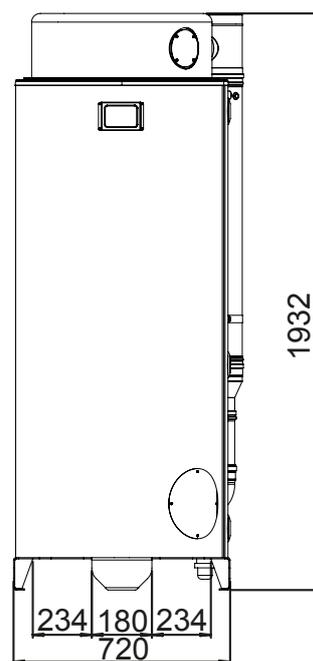

Code **HY49-350**
 Price **€ 7.460,00**

Main characteristics

- Internal glazing
- Closed-cell polyurethane foam insulation
- Electronic ignition
- Impressed current cathodic protective system
- Natural gas up to 20% hydrogen approved
- Low NOx emissions premix burner (<40 mg/kwh)
- Weekly programming
- Anti-legionella function
- Antifreeze function
- Inspection and cleaning flange
- Various ATI flue kits available

Condensing gas fired storage water heater

Product details

WHC 400

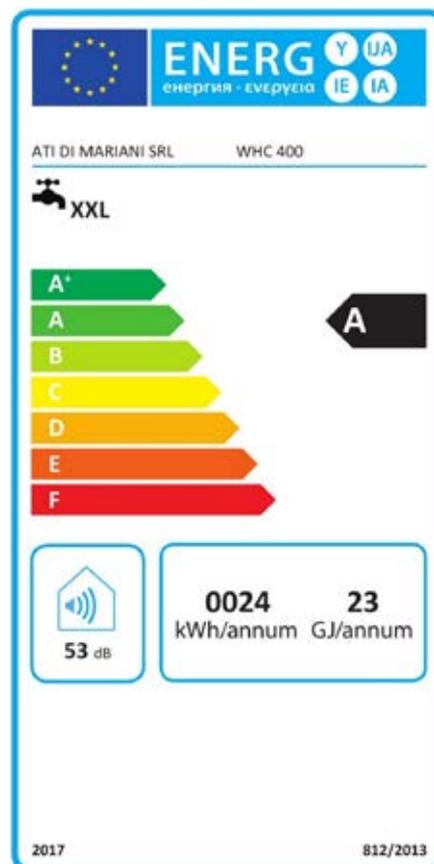

ErP Ready

Low Emissions

Premix Burner

Code **WHC400**
Price **€ 5.880,00**

Device operating with ATI original flue kits only

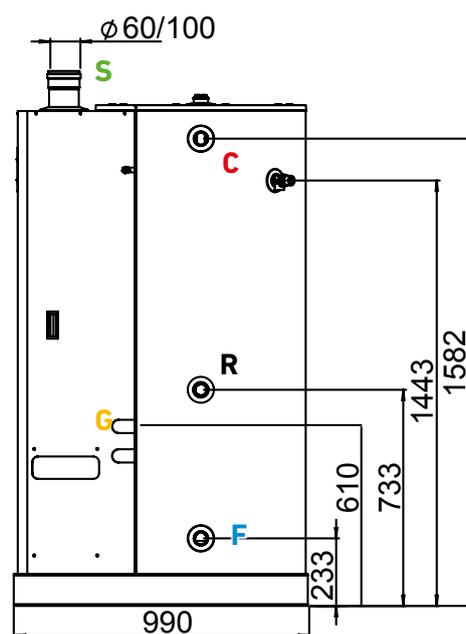

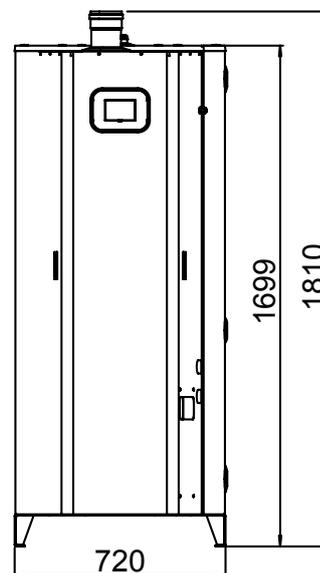

Main characteristics

- Internal glazing
- Closed-cell polyurethane foam insulation
- Electronic ignition
- Corrosion protection with magnesium anode
- High efficiency AISI316 steel heat exchanger
- Stainless steel multigas premix burner, natural gas ready
- Possibility of conversion to propane
- Overpressure safety valve
- Inspection and cleaning flange
- Anti-legionella function
- Various ATI flue kits available

Kit di scarico da pag. 44

Device operating with ATI original flue kits only

Main characteristics

- Internal glazing
- Closed-cell polyurethane foam insulation
- Electronic ignition
- Corrosion protection with magnesium anode
- Adjustable thermostat and overheat safety thermostat
- Stainless steel multigas burner, natural gas or propane ready
- Flue safety pressure switch
- Overpressure safety valve
- Inspection and cleaning flange
- Various ATI flue kits available

Technical data		
Storage capacity	L	160
Nominal input (gross)	kW	13,00
Nominal output (net)	kW	11,96
Warm up time ($\Delta T = 45^{\circ}\text{C}$)	min	42
Continuous water at 40°C	l/h	411
Draw-off capacity single withdrawal*	L	320
Methane consumption (G20)**	m ³ /h	1,40
Propane consumption (G31)**	kg/h	1,00
Max operating pressure	bar	6
Net weight	kg	120
Connections		
Cold Water Inlet	F	G 3/4"
Hot Water Outlet	C	G 3/4"
Recirculation	R	G 3/4"
Gas Inlet	G	G 1/2"

** Under standard conditions: T in 15°C , 1013 mbar

Natural flue draft gas fired storage water heater

Product details

TX400

**ErP
Ready****Low
Emissions****Methane**Code **TX400**Price **€ 4.260,00****Propane**Code **TX400P**Price **€ 4.290,00**

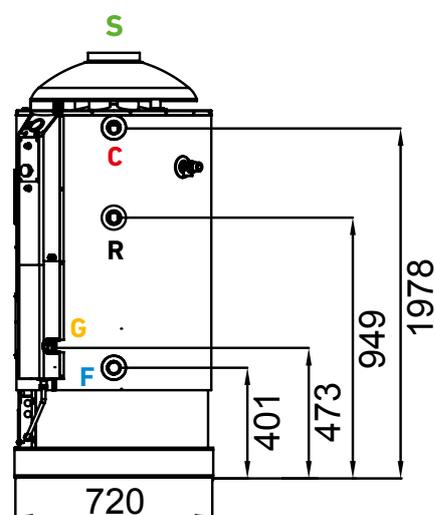

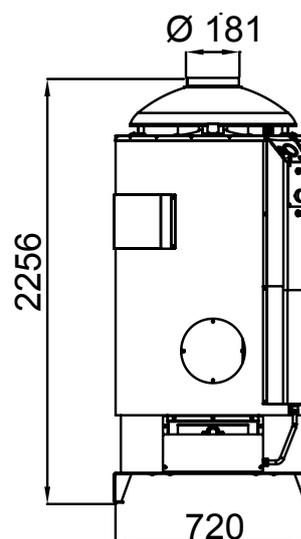

Main characteristics

- Internal glazing
- Closed-cell polyurethane foam insulation
- Electronic ignition
- Corrosion protection with magnesium anode
- Adjustable thermostat and overheat safety thermostat
- Stainless steel multigas burner, natural gas or propane ready
- Flue gas safety thermostat
- Overpressure safety valve
- Inspection and cleaning flange

Technical data		
Storage capacity	L	388
Nominal input (gross)	kW	24,00
Nominal output (net)	kW	20,88
Warm up time ($\Delta T = 45^{\circ}\text{C}$)	min	58
Continuous water at 40°C	l/h	718
Draw-off capacity single withdrawal*	L	776
Methane consumption (G20)**	m ³ /h	2,50
Propane consumption (G31)**	kg/h	1,90
Max operating pressure	bar	6
Net weight	kg	225
Connections		
Cold Water Inlet	F	G 1" 1/4
Hot Water Outlet	C	G 1" 1/4

300	1,50	174	183	124	80	8,2	12,0	14,1	18,5	15,3	201	296	347	453	264
	3,00	148	153	107	70	8,8	13,5	15,6	20,4	16,8	216	332	384	501	289

The data shown in the tables refer to the following conditions:

- 1 Primary circuit connected to a suitably sized generator
- 2 Heat exchangers clean and free of limescale deposits, non-scaling domestic water (<15°Fh)
- 3 T1: Primary inlet temperature to the tank – constant

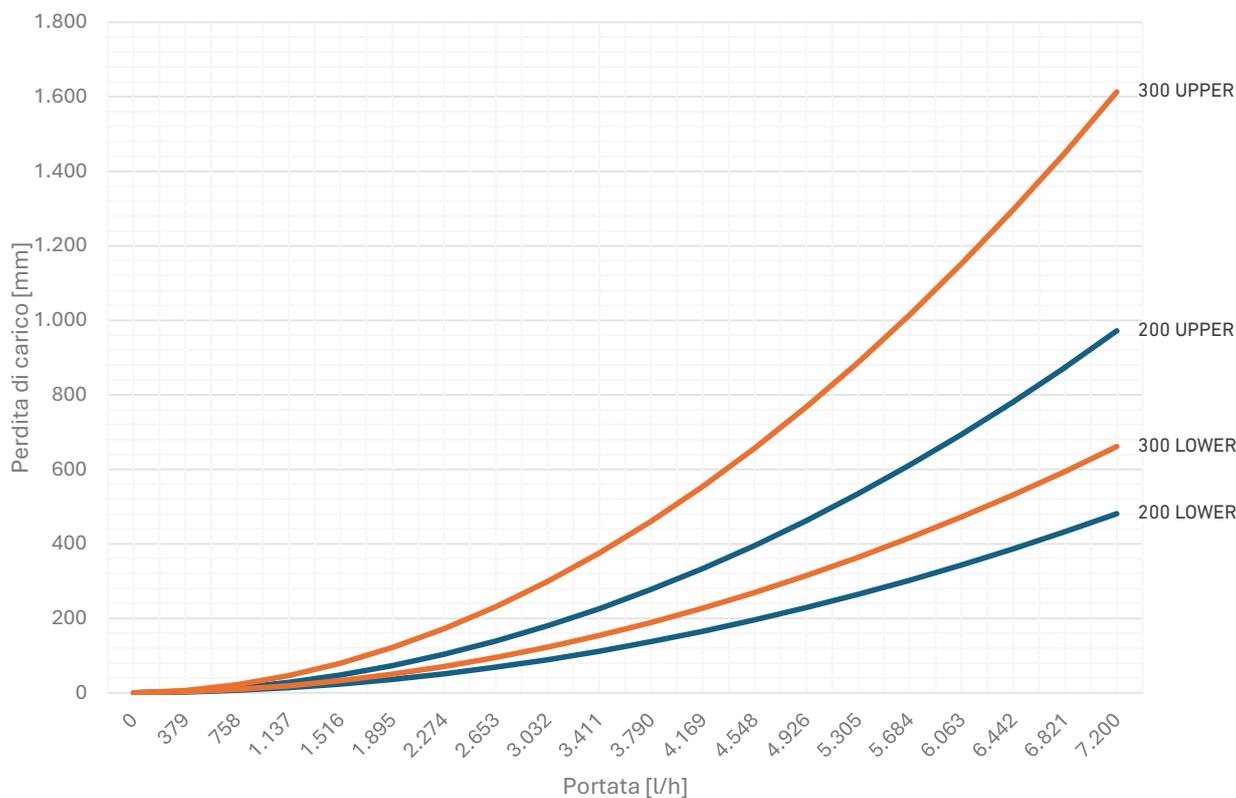

PRESSURE DROP – SINGLE HEAT EXCHANGER

Model	Heat Exchanger Surface m ²
200	1,8
300	3,2

PRESSURE DROP – DOUBLE HEAT EXCHANGER

Model	Upper Heat Exchanger Surface m ²	Lower Heat Exchanger Surface m ²
200	1,2	0,6
300	2,0	0,8

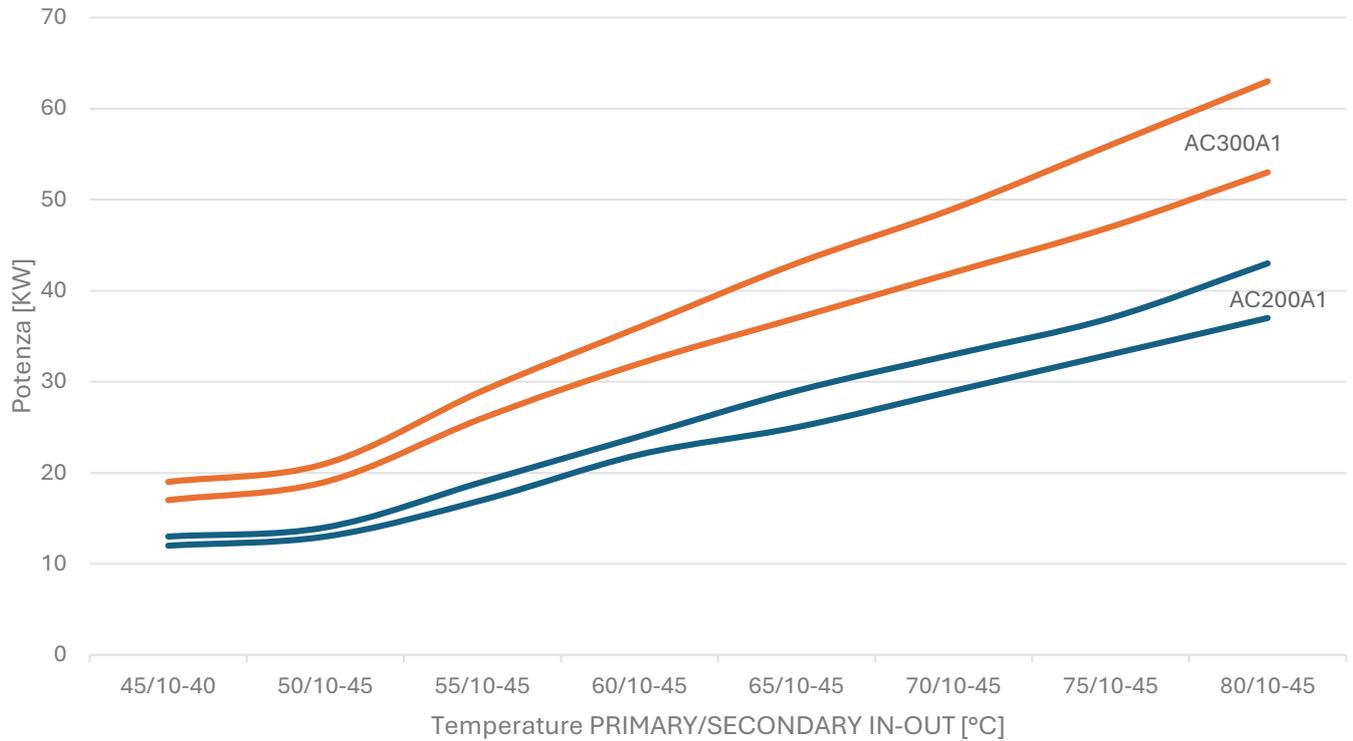

The data shown in the tables refer to the following conditions:

- 1 Primary circuit water temperature: 55 °C
- 2 Heat exchangers clean and free of limescale deposits, non-scaling domestic water (<15 °fH)

SINGLE HEAT EXCHANGER POWER

Model	200		300	
Flow Rate [mc/h]	Min	Max	Min	Max
	1,25	2,5	1,5	3

CALOR TANK

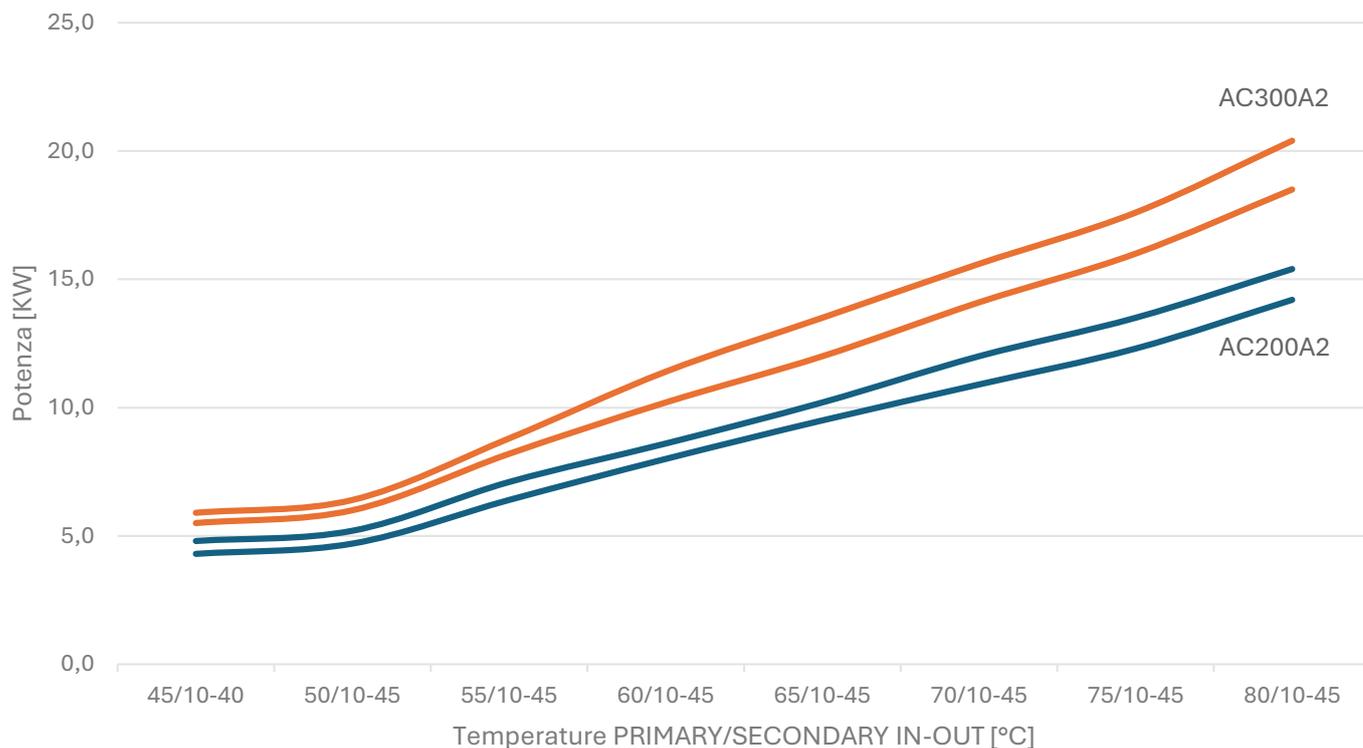

The data shown in the tables refer to the following conditions:

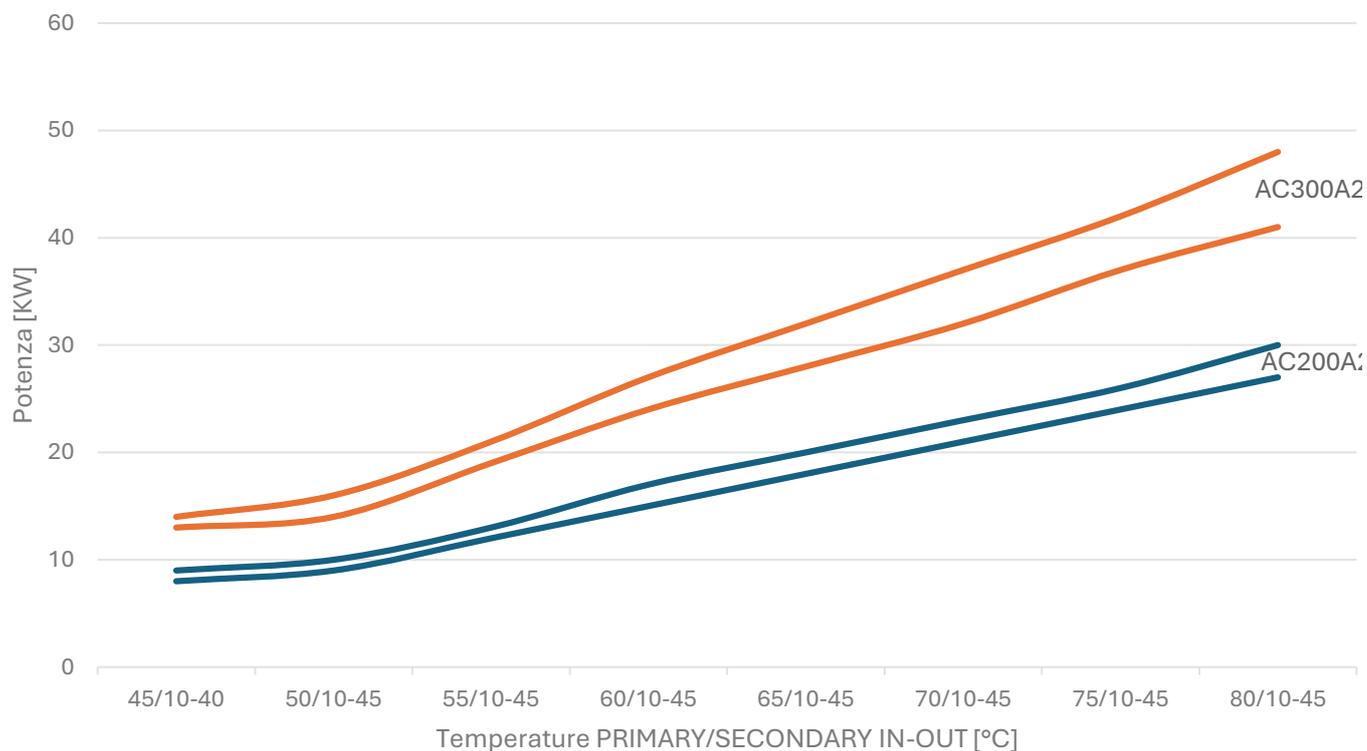

- 1 Primary temperature and flow rate as indicated in the graph and table
- 2 Secondary: 10–40 °C and 10–45 °C
- 3 Continuous DHW withdrawal

The upper curve, which defines the operating range of each heat exchanger, corresponds to the “upper” primary flow rate indicated in the table; the lower curve corresponds to the “lower” flow rate.

UPPER HEAT EXCHANGER POWER

LOWER HEAT EXCHANGER POWER

The data shown in the tables refer to the following conditions:

- 1 Primary temperature and flow rate as indicated in the graph and table
- 2 Secondary: 10–40 °C and 10–45 °C
- 3 Continuous DHW withdrawal

The upper curve, which defines the operating range of each heat exchanger, corresponds to the “upper” primary flow rate indicated in the table, while the lower curve corresponds to the “lower” flow rate.

Warranty 5 years

Technical data		
Gross surface of solar collection	m ²	1,20
Storage capacity	L	200
Empty weight	kg	81
Filled weight	kg	281
Dimensions	m	1,09 x 1,09 x 0,45
Connections IN/OUT	G	3/4"
Max. inlet pressure	bar	4
Max. operating pressure	bar	6
Safety valve pressure	bar	/
Valve pressure T&P	°C / bar	92 / 7
Tank	n.	1
Tray material		ABS
Frame with standard brackets		galvanized steel
Internal tank treatment		double enamel EU 1935/2004
Insulating material		expanded polyurethane
Insulating density	kg/m ³	45
Lateral thermal insulation	mm	30
Lower thermal insulation	mm	30
Antifreeze electric resistance (optional)	W	/
Electric heating resistance (optional)	W	1.200
Frame tilt	degree	0°-14°-27°-37°
Packaging		
1 piece	kg l x w x h cm	84 113 x 113 x 71
1 pallet	pc (kg) l x w x h cm	3 (252) 113 x 113 x 193

SOLAR PANELS

Combined system of automatic showers with solar panel

ADRIA

In collaboration with **Duebbi** SRL

Product details

STANDALONE ELECTRIC OPERATION WITH NO CONNECTION TO THE GRID REQUIRED

SOLAR PANELS

Code **SSPWHY200**

Price € **8.350,00**

Easy installation

Capacity

Warranty 5 years

Fully autonomous operation, with no electrical connection required. The photovoltaic panel, combined with a long-life battery, independently powers the electronic boards and the automation systems inside the cabins.

- 2 independent shower stations, complete with cubicles.
- Timed dispensing with token/coin operation, programmable.
- Anti-vandal stainless steel push button for water pause and flow reducers (6 L/min) for water saving.
- 193 L storage capacity, providing up to 150 showers per day (50 continuously).
- Managed by microprocessor-based electronics with a high-visibility display.
- Standard operation with token or coin; RFID transponder option available on request.

Technical data		
Collector surface area	m ²	1,89
Tank capacity	L	193
Empty weight	kg	100
Full weight	kg	293
Dimensions	m	1,9 x 0,9 x 0,3
IN/OUT connections	G	3/4"
Max. inlet pressure	bar	4
Max. operating pressure	bar	6
Safety valve pressure	bar	7
T&P valve pressure	°C / bar	/
Tank	n.	4
Cover material		double tempered glass
Tray material		UV-resistant EPP
Frame with standard brackets		black painted steel
Internal tank treatment		double enamel coating – EU 1935/2004 compliant
Insulation material		EPP
Insulation density	kg/m ³	60
Side thermal insulation	mm	50
Bottom thermal insulation	mm	30
Anti-freeze electric element (optional)	W	200
Electric heating element (optional)	W	1.500
Frame tilt angle	degree	0°-15°-25°-35°-45°

FLEXIBLE PIPE ROLL

Flexible pipes are supplied in rolls made up of 50cm long modules in order to facilitate the fulfilment of flue systems of the desired length. Each module has a male and a female thread.

The modules are paired alternately, female against female and male against male, as shown in the scheme. In the below table are listed the main module sizes for the various diameters. The flexible diameter 50 has a different design since it's fully corrugated.

NOTES

GENERAL TERMS AND CONDITIONS OF SALES

The following terms of sale and delivery are totally accepted without reserve at the placing of the order and they cancel any other previous terms.

1. All specifications contained in the catalogue, the pictures and drawings shall be deemed to be merely approximative and they do not commit the manufacturer to a faithful execution of all details. The manufacturer reserves the right to make any changes in the products that the experience and the technical developments may suggest.
2. No changes to the order are allowed once the production cycle has begun.
3. All orders are "subject to the house approval" and all our quotations are not binding and sale excepted.
4. Our prices are subject to changes at any time, with no obligation to give prior notice, on the ground of increases in the cost of raw materials, labour or anything else involved in the production cycle of the goods and in any case they are not binding unless confirmed by ATI DI MARIANI SRL.
5. All claims for obvious defect of the products, which are not related to transport, or for non conformity to the order placed, shall be made in writing and sent by registered letter within eight days from the date of the receipt of the goods. After this term no claim will be accepted. The goods considered to be defective shall be returned to our warehouse, upon our authorisation, free of all transport costs.
6. In the event of damage or shortages, the purchaser shall issue due reservations to the carrier on the delivery note at the time of delivery.
7. The goods shall always be delivered ex our factory. If, because of special agreements, the delivery is carriage free, the goods shall in any case be considered as delivered on lorry but not unloaded: therefore, all costs and risks deriving from the unloading are at the purchaser's charge. The goods always travel at the purchaser's risk, even if sold ex destination.
8. In the event of delay in the delivery for reasons that are independent from ATI's will, the purchaser shall be entitled neither to demand compensations of any kind, nor to cancel or change the order.
9. In the event any of the above terms is not fulfilled by the purchaser and, in particular, in case of delay in payments or failure to pay one or more instalments, the vendor shall be entitled to take legal action and to terminate the agreement with no obligation to any other supply in process. Any possible claim does not entitle the purchaser to delay payments.
10. The goods shall be returned to ATI, only in special cases and when authorised by ATI, always free of all transport costs provided that they have not been used and are in perfect conditions.
11. In the event of sales outside Italy, this agreement will be governed by the Italian law.
12. If any dispute should arise between the parties, the Forlì Court shall have the sole jurisdiction thereover.

**Attention: things to be done
before signing the delivery note**

1. **Check the quantity of parcels received: it has to correspond to the quantity stated on the delivery note.**
2. **Check the labels on the parcels: they have to state the correct delivery address.**
3. **Check the condition of the parcels: they have to be neither damaged, nor tampered.**
4. **If something anomalous is found, sign the delivery note with RESERVATION and specify the faultiness (i.e. reservation for missing parcel, for damaged box, etc.)**

N.B. Making the reservation is a right enacted by the Civil Code (art. 1698). Generic reservations have no legal recognition (i.e. we reserve the right to check the parcels, etc.); therefore making the reservation in front of the courier, specifying the exact faultiness, is essential.
